DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-33 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. The subject matter of claims 1 and 28 is directed to sorting mail pieces. However, it is unclear as to how a second mail piece is sorted using information extracted from a first mail piece. Therefore, one of ordinary skill in the art would not have been able to practice the invention without undue experimentation and burden.

Claims 2-27 and 29-33 are being rejected as incorporating the deficiencies of the claim upon which each respective claim depends.

Examiners Notes

Pending the clarification of the 112 rejection, there is no prior art available for rejecting claims 1-33.
